## St Mark's Nurse Education

### Pelvic exenteration

Target audience: Colorectal clinical nurse specialist and other clinicians involved in supporting this patient group.

Aim: To offer clinicians knowledge to guide post-operative management of individuals following a pelvic exenteration.

By the end of the session, delegates will be able to:

- Understand what pelvic exenteration surgery entails and why it is undertaken.
- Identify what is normal after surgery as well as commonest complications.
- Recognise the importance of early interventions of any complications.

**Thursday 5th February 2026**

**Time: 9.30am-4pm**

**Venue: face to face/hybrid - teams at NW10 7NS**

**Cost: £90**
